CHOLERA SITUATION REMAINS UNCHANGED

Only One American Dies During Past 48 Hours.

HEALTH CONDITIONS IMPROVED

The Health Authorities Believe that Next Three Days Will See that Disease is Confined and an Epidemic Averted.

Manila, July 9.—The cholera situation remains unchanged.

Joseph McDermote was the only American who died in the last 48 hours.

The health authorities believe that the next three days will see that the disease is confined and an epidemic averted.

General health conditions have been improved, and the Marquina water supply which has not been contaminated, is guarded by regular United States troops.

Washington, July 9.—The bureau of insular affairs has received the following from Governor-General Ide regarding the outbreak of cholera in Manila:

"W. H. Bart, died of cholera July 4th (notify).

"Decided improvement in situation in the 24 hours ending July 8th, eight cases. No further increase in provinces. Practically all cases above mentioned were found dead."

This is the only report of death by cholera of an American which has been officially received since the reports of the recent outbreak.

Child Labor Bill.

Atlanta, July 9.—A child labor bill, framed by 23 of the 44 members of the senate, constituting a majority of the upper house of the state legislature, and insuring its adoption by that body, was introduced in the senate Friday. The new measure is said to meet favorably the requirements of those who voted against the child labor bill, which was defeated in the senate last year, and it is believed the new bill will be passed by a large majority during the present session. The measure as introduced is said to have been the result of continued efforts of the different members of the senate to reach some agreement that would meet with the views of all.

Steed Bill Passes.

Atlanta, July 9.—By a vote of 130 to 6, the lower branch of the general assembly of Georgia Friday morning passed house bill No. 11, by Mr. Steed, of Carroll, as amended, providing that the county school commissioners shall be elected by the electors of their respective counties, who are entitled to vote for the members of the general assembly. The adopted amendment, as submitted by Mr. Wright, of Richmond, is to the effect that nothing in the measure shall be so construed as annulling any local or special law now in force, providing for the organization and maintenance of public schools in any city or county.

Steel Beam Crushes Man.

Macon, Ga., July 9.—The remains of Walter M. Sneed, a former Macon man and a bridge contractor, who was hit in Birmingham by a steel beam which dropped from above him while he was engaged in the erection of a bridge for the Central railroad, were brought here Friday and a funeral was held in Hart's undertaking chapel, Rev. T. D. Ellis officiating. He was a resident of Macon two years ago, and has for a long time followed bridge work. He was 35 years of age and leaves a family. Interment occurred in Rose Hill cemetery.

CLERK TO BE SUSPENDED.

Stormy Meeting of Savannah City Council.

Savannah, Ga., July 9.—In a stormy session the city council Friday afternoon with about two members dissenting passed a resolution suspending Clerk of Council J. Robert Creamer, pending an investigation of his having failed to turn into the city treasury police court fines to the amount of more than $2,000.

The funds were finally turned in, but this was after the lapse of weeks from the time of the fines were paid and in the hands of the clerk and accounting was secured form the clerk only after most decided efforts to secure a settlement had been made by the mayor and the chairman of the finance committee.

The investigation will take place next Wednesday before council. The Creamer matter has created great local interest, as he is one of the most generally known men in Savannah.

A question of veracity as between Mayor Meyers, Chairman of Council James M. Dixon and Chief of Police Charles Garfunkel is also an issue in the case, Alderman Dixon having said that the mayor said that it might be desirable to shadow Creamer.

Sharp words were exchanged during the meeting and also aboard the train bound for Tybee between Mayor Meyers an Alderman Dixon.

Gratified at Markmanship Progress.

Washington, July 9.—In a letter to Acting Secretary Oliver, President Roosevelt has expressed his gratification at the remarkable progress that is being made by the enlisted men of the army in markmanship. Before the Spanish war the American private soldier was admittedly the finest shot in the world. The addition of a large number of volunteers had the effect of greatly reducing the average of the riflemen. But since the reorganization following the war, every effort has been made to stimulate interest in markmanship, and the result is that today the average is probably as high if not higher than it was at the beginning of the war.

Charged with Murder.

Edna, Tex., July 9.—As the result of an examining trial, Felix Powell, has been remanded to jail without bail on the charge of having murdered Mrs. A. J. Conditt and her four little children near here last spring. Ranger Captain William McDonald made the accusation. Powell had been in jail for some time for an assault upon his sister in law and when the warrant was read to him in the Conditt case he became so enraged that it was necessary to mancle him with a heavy ox-chain. Later when the officers were trying to sweat a negro woman alleged to be implicated, he burst the links apart and went on an other rampage.

Fears Are Relieved.

Washington, July 9.—Anxiety for the safety of the light house tender Laurel was relieved Saturday when the light house board received a telegram from Lieutenant Commander Hood, light house inspector at Key West, reporting that she had been anchored under Lobow light from June 25 to July 2. The Laurel was due at Guantanamo June 27 and when she failed to show up there several days after that date, Lieutenant Commander Hood left Key West with the tender Mangrove in search of her and at his request the naval tug Osceola was sent out from Key West to look for the missing tender.

$30,000 Fire Loss.

Mobile, Ala., July 9.—Fire that started at Gulfport, Miss., early Saturday morning, caused a loss of about $30,000. Six or eight small buildings were destroyed and the Western Union and Postal Telegraph offices were damaged, all wires being lost and still down. The union depot escaped.

Airship Bore Aeronaut on Remarkable Voyage.

WAS PICKED UP OUT AT SEA

His Life Was Saved by Fortunate Shift of the Wind—Ascended July Fourth and Traveled Over Two Hundred Miles.

Boston, Mass., July 9.—After one of the most remakable experiences in the history of aerial navigation, Jas. K. Allen, the aeronaut, who made a balloon ascension at Providence on the Fourth of July, was brought to this port Friday night on the fishing schooner Francis V. Sylvia. Allen was picked up at sea 12 miles off Chatham, eighteen and a half hours after his departure from Providence.

Allen had a narrow escape from death by drowning, the winds that had prevailed Wednesday, having blown his balloon a long distance from the shore. Until news of his arrival here became known it had been thought he had met his death, as it was known that at the last time he was sighted on Wednesday evening he was traveling out to sea.

That Allen is alive is due wholly to a fortunate shift of the wind. When he made his ascension at Providence on Wednesday the wind was blowing a brisk breeze from the southwest. The aeronaut was carried in his balloon in a northeastely direction, and passed over the town of Attleboro. He had his balloon under perfect control at that time, and while in the vicinity of Attleboro he descended twice.

From Attleboro the airship traveled in the direction of Brockton, and the last seen of the aeronaut by observers on shore was when he passed over Scituate early in the evening.

At that time the balloon was headed straight out to sea. When Thursday dawned without any news being received from Allen and it became known that the last time he was seen was when he was headed out to sea, it was then believed that he would never return.

After Allen passed over Massachusetts bay his plight was more perilous. Wednesday night he was over Provincetown. At this point of the voyage the wind shifted from southwest to northeast, and from Provincetown the balloon sailed down the outer Cape Cod coast. At 7:30 o'clock the aeronaut was rescued 12 miles off Chatham by the fishermen of the Sylvia. The balloon was saved in good condition, and was brought to Boston on the schooner.

During his flight Allen covered a total distance of about 200 miles, nearly half of which was over the water. The point where he was picked up is about 77 miles from Providence in a direct line.

Warrant Out for Cavendish.

New Orleans, La., July 9.—Telegrams from New Iberia, La., say that a warrant for the arrest of John C. Cavendish, also known as Lord Douglas, has been sent to the chief of police of an eastern city. The name of the city is withheld. Cavendish, who is alleged to be a bigamist, married Miss Josephine Hood, of New Iberia, last December and since then, although the state department at the city of Washington has searched for them through consular officers and although the governors of Texas, Virginia and North Carolina have offered rewards for Cavendish's capture, neither he nor his wife have been found.

NO FEVER IN NEW ORLEANS.

Report Published in Mobile Said To Be Untrue.

New Orleans, July 9—Information that a report was published in Mobile saying that yellow fever had appeared in New Orleans was received by the Louisiana state board of health.

Dr. C. H. Irion, president of the Louisiana board, authorized the statement that the Mobile report was probably based on the fact that a case of fever, which had been officially diagnosed as typhoid, was reported Friday to the state board as suspicious.

This case was reported merely as fever, accompanied by black vomit. The state board immediately appointed a committee of physicians to examine the patient. They worked all night, making every test possible, and were unanimous in the diagnosis of typhoid.

Two other cases of pronounced typhoid fever were found in the same house. The examining physicians were Dr. P. E. Archinard, George K. Pratt and J. M. Bachelor.

Dr Irion said also that so far as the state board of health can learn, there is now no yellow fever anywhere in New Orleans.

Topeka, Kans., July 9.—The state supreme court has handed down a decision holding Mayor W. W. Rose, of Kansas City, Kans., in contempt for having assumed the office of mayor after the court had ousted him for the non-enforcement of the prohibition law and the law against gambling. In the order Mayor Rose is ordered to relinquish the office and is fined $1,000 for contempt. The court further orders, if Mayor Rose fails to pay the fine within 20 days, he shall be committed to jail until such time as it is paid. Mayor Rose's attorneys immediately filed a writ of error.

Chicago, July 9.—Almost completely enveloped in flames which were started by the accidental combustion of a package of peroxide of soda which he carried in his pocket, William Schoen ran through Jackson Boulevard, pursued by a large crowd, the members of which were anxious to catch him and extinguish the flames. Schoen was finally caught by a policeman who tore his burning clothes from his person. He was taken to a hospital, where it was said that he was fatally burned.

MAN IN PRISON IS NAMED FOR GOVERNOR

Haywood Selected by Colorado Socialists.

MAY BE RELEASED BY FORCE

In Nominating Haywood It Was Openly Charged that He had Been Kidnaped and Imprisoned at the Behest of the "Capitalistic" Class.

Denver, Colo., July 9.—It was learned Friday night that the Socialist party of Colorado held a convention in this city on the Fourth of July and nominated a full state ticket, headed by William D. Haywood, secretray-treasurer of the Western Federation of Miners, now in prison in Idaho, for governor.

Haywood is accused of being a party to the conspiracy which resulted in the murder of ex-Governor Sheunenburg, of Idaho, by a dynamite bomb.

In nominating Haywood, John M. Martin, of Denver, said:

"I do not rise to name a well-groomed business man or a professional politician, seeking graft. Nor do I name a labor leader who is dined and wined at civic federation banquets. But I rise to name a man who, in executive ability is the peer of the best and whose personal integrity is without stain.

"A man whose hands have been calloused by honest labor and whose very heart throbs in sympathy with those who toil. A man who has never been praised by the capitalistic press as 'the greatest labor leader in the world, but who, as a labor leader, has never betrayed his trust nor sold out a strike. A man who, because of his loyalty to the working class, has been struck down by brutal soldiery on the streets of city.

"A man who, for that same loyalty, was kidnaped by the command of the powers of capitalism and contrary to all legal forms and observances was carried to a distant state and thrown into a felon's cell, where for months he and his faithful comrades have waited, demanding in vain the speedy trial guaranteed to every citizen by our constitution and laws—William D. Haywood, the prisoner in Caldwell jail."

Mr. Martin declared that the working classes of Colorado would rally to Haywood and that he would be elected. Concluding, he said:

"And if they refuse to release him we may feel impelled to march to Idaho and take our chief executive by force if necessary out of the teeth of the dogs of capitalism and carry him in triumph to our statehouse."

Cost of Agricultural Department.

Washington, July 9.—Secretary Wilson has made a computation showing that it would require an investment of $550,000,000 at 2 per cent to produce revenues enough to run the department of agriculture for one year. This is an illustration, he said, of what is being done for the farmer. The income of the department from all sources, including the direct appropriations, revenues from forest reserves and the allowance for public printing, is a little more than $11,000,000 a year.

Mitchell, foreman of the experimental station of the college, have arrived in the city, and began Monday laying fences and setting posts for the enclosure which will be employed as an experimental farm. The soil is diversified, and experienced agriculturists state that it will prove an ideal location for the purpose for which it will be used.

President Andrew Sledd, who left Monday for Palatka, expresses himself as being better pleased every time he visits the new University grounds. He, too, realizes that the selection was a wise one as regards elevation, nature of soil—and in fact everything else, and considers it fortunate that the selection was made at this point.

Dr. Sledd expects to bring his family here on September 1st, after which he will remain permanently.

BEFORE THE COURTS.

Steel Range and Lightning Rod Salesman Hauled Up—Justice Court.

The mills of justice were set to grinding in both Judge Mason's and Justice Colman's courts Monday, starting the week with a lively day.

A. G. Reynolds, division manager of the Wrought Iron Range Company of St. Louis, Mo., with four of his solicitors, were arraigned for doing business in the county without a license. Mr. Reynolds and his men have been working the county soliciting orders for ranges, and it is claimed that his company is subject to a license. Mr. Reynolds insists, however, that a license is not necessary, and that the State law governing same is in direct conflict with the laws of the United States government. He asked the court for further time, in order that his attorneys, Judge Syd L. Carter of this city, and Ira J. Carter of Live Oak, might prepare the case. The court granted the request, setting the date of hearing for July 19, when the defendants were required to furnish bond in the sum of $150 each.

B. S. Calhoun, manager, and two other solicitors for a lightning rod house, were arraigned upon the same charge—doing business in the county without a license. These defendants presented the same argument as Mr. Reynolds, and they were also released under bond of $150 each for their appearance on the 19th. It is understood that the same attorneys are representing the lightning-rod salesmen.

Justice Colman's Court.

Stanley Watson and Elisha Ganey, colored, were arrested Saturday night by Officers J. H. Granger and W. M. Burch upon two charges—breaking and entering the stores of H. L. Rosenberger of Kirkwood, and stealing a horse from Officer Burch, on Friday night preceding.

The defendants pleaded guilty as charged, and were required to furnish a bond of $250 each upon each charge. Watkins gave bond and was released, but Ganey, in default of bond, was committed to jail to await the action of the grand jury at the fall term of the court.

Start on Practice March.

Chattanooga, July 9.—The Twelfth cavalry, stationed at Fort Oglethorpe on the Chickamauga battlefield, started Saturday morning on a practice march to Knoxville and return. The [illegible] went in full force and will follow the old lines of the march of Sherman's men and those who went to the relief from here in the fall

OPERATION AVOIDED

EXPERIENCE OF MISS MERKLEY

She Was Told That an Operation Was Inevitable How She Escaped It.

When a physician tells a woman suffering with serious feminine trouble that an operation is necessary, the very thought of the knife and the operating table strikes terror to her heart, and our hospitals are full of women coming for just such operations.

Miss Margret Merkley

There are cases where an operation is the only resource, but when one considers the great number of cases of menacing female troubles cured by Lydia E. Pinkham's Vegetable Compound after physicians have advised operations, no woman should submit to one without first trying the Vegetable Compound and writing Mrs. Pinkham, Lynn, Mass., for advice, which is free.

Miss Margret Merkley, of 275 Third Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham:

"Loss of strength, extreme nervousness, shooting pains through the pelvic organs, bearing down pains and cramps compelled me to seek medical advice. The doctor, after making an examination, said I had a female trouble and ulceration and advised an operation. To this I strongly objected and decided to try Lydia E. Pinkham's Vegetable Compound. The ulceration quickly healed, all the bad symptoms disappeared and I am once more strong, vigorous and well."

Female troubles are steadily on the increase among women. If the monthly periods are very painful, or too frequent and excessive—if you have pain or swelling low down in the left side, bearing-down pains, don't neglect yourself: try Lydia E. Pinkham's Vegetable Compound.

JUDGE LOST HIS TEMPER.

Jumped from the Bench and Carved Prisoner With Knife.

The Key West correspondent of The Miami Metropolis tells the following rather unusual incident:

"Richard Lloyd, better known as Bats, was arrested Thursday for disorderly conduct and using obscene language, and was tried before Judge Brooks Friday afternoon.

"During the trial Lloyd continually interrupted the judge, who sentenced him to sixty days in jail and a fine of $100, and ordered the marshal to take him to jail.

"While being taken away the prisoner kept up his abuse. The judge had him brought back and added an additional fine of $50. Lloyd than asked the judge if he was through, and he answered that he was, whereupon Lloyd again began a tirade of abuse against the judge which was of such a nature that it could not be endured.

"Judge Brooks jumped from the bench and rushed at the prisoner, and before anyone could interfere had cut 'Bats' across the throat and inflicted an ugly gash across his side with a pocket knife, the only weapon he had. By this time the court room was in an uproar, men running in all directions.

"The prisoner was taken to a cell and his wound dressed by a physician, who pronounced his injuries not serious."

ARE SAFE IN GERMANY.

Misses Hampton and McCreary Reached Port in Safety.

The numerous friends of Misses Clem Hampton and Irene McCreary in this city and throughout the State will be glad at the information that they have safely arrived at Bremenhaven, Germany, as a cablegram from Miss McCreary to her parents, under date of July 9, states that all arrived safely and were well.

Misses Hampton and McCreary left this city on June 27 for a trip abroad. They joined a pleasant party at Baltimore, sailing from that port a few days later. The party expects to be absent about three months, visiting may places of interest in Germany, France, Italy and other European countries. Upon their return they expect to spend a short time in Northern New York and Canada.

A Novel Entertainment.

On Thursday of the present week Mrs. R. H. Arnold, at her home in New Gainesville, will entertain the members, active and honorary, of the local W. C. T. U., at an old-fashion country dinner, to which every member is invited to accept the hospitality of Mrs. Arnold upon this occasion.

The Sun has been requested to announce that carriages will leave the reading-room, East Court street, at 10:30 and 11:30 a. m. The fare for the round trip will be 25 cents.

Noisy Old London.

Modern cities are not as noisy as those of other days. For example, in London in the time of King George II. the streets were still cobbled and the pack horse of Elizabethan memory had been replaced by heavy carts and wagons. Barrels of beer and heavy cases were dragged about on drays of iron without wheels, and to add to the tumult heavy signs in immense frames of ironwork hung out in front of shops and houses and croaked interminably. Street cries never ceased for a moment all day. All the smaller necessaries, such as pins, thread, string, ink, straps, fish, milk, cakes, bread, drugs, herbs, matches, were hawked in the streets.

The Modern Way.

"My dear, you must really take Freddy in hand about the way he uses slang. Today he asked me what entomology was, and I told him the science of bugs."

"Well?"

"Then he asked me if an entomologist was a crazy man."—Baltimore American.

A Good Answer.

A shopkeeper had for his virtues obtained the name of "the little rascal." A stranger asked him why the appellation had been given to him.

"To distinguish me from the rest of my trade," quoth he, "who are all great rascals."—London Mail.

Thin Hair

Yes! We had noticed that your hair was looking pretty thin, and that it lacked luster and life. But we didn't like to speak of it! Of course you know that Ayer's Hair Vigor is a regular hair-grower, makes the hair soft and smooth, gives it life and strength. This isn't the kind of hair that falls out! And, too, it keeps the scalp so clean and healthy.

MERCURY A DECEPTIVE TREATMENT

Mercury and potash are very deceptive treatments and the blood poison sufferer who depends on them for a cure is sure to be disappointed. These minerals will remove the external symptoms and shut the disease up in the system for a while, but the trouble will surely return and the loathsome symptoms of sore mouth and throat, copper-colored spots, falling hair, sores and ulcers etc., will be accompanied by the disastrous effects of the treatment. The continued use of these strong minerals will completely ruin the health and weaken the system to such an extent that the original disease often becomes incurable and sometimes fatal. Mercury and potash eat out the delicate lining of the stomach and bowels, destroy the gastric juices, producing chronic dyspepsia, cause mercurial Rheumatism, salivation, and where they are taken in large quantities cause necrosis or decay of the bones. S. S. S. is the only remedy that can cure Contagious Blood Poison surely and safely. This remedy of nature, made entirely of roots, herbs and barks, antidotes and destroys the powerful virus of the disease and by purifying the blood of every particle of the poison and enriching and strengthening this vital fluid it removes every symptom and leaves the body in a strong, healthy condition. When the blood has been purified with S. S. S. the cure is complete, and not one vestige of the poison is left for future outbreaks. Do not waste valuable time, and damage your health with the mineral treatment, but cure your case with S. S. S., an absolutely safe remedy. We offer a reward of $1,000 for proof that S. S. S. contains a particle of mineral. Book with instructions for self treatment and medical advice without charge.

SPRING PARK FARM IS AN IDEAL SPOT

One of the Handsomest and Most Up-to-Date Places in South.

THE FARM IS A MODERN ONE

Manager Callison is Making a Place For the Raising of Fine Registered Cattle Which Cannot be Excelled Anywhere—An Immense New Barn.

A visit to Spring Park Farm, of which the Spring Park Stock Farm Company is owner and N. A. Callison manager, will convince any person that fine live stock will thrive as well in Florida as anywhere else in the world.

This company started in the business of raising registered cattle about two years ago, since which time they have enjoyed remarkable success. In selecting the foundation herd of Herefords and Jerseys, no pains or expense were spared in securing the very best that could be obtained below the quarantine line, Manager Callison visiting the farms of the principal breeders and making personal selection of the cattle. As a result, there are among the lot a number of prize winners at various fairs and cattle shows, and a Florida raised herd was exhibited and awarded the first prize at the State Fair, Tampa, last November, as the best herd of Florida raised Herefords. In all, twenty-seven prizes were awarded the Spring Park Stock Farm Company at the State Fair.

Manager Callison is a man of energy, and is continually making improvements on the property. He is just about to complete an immense cattle barn, which is said to be the largest of its kind in the Southeastern States. Its dimensions are 189 feet in length, with an eighty-foot L, the latter being an open shedway for young cattle. The main barn contains twenty-six large and modern stalls, provided with every convenience.

The barn is two stories, the second floor being used as a storage for hay and feedstuffs. It is so modernly arranged that the matter of transferring the contents of the wagons to this room is an easy matter, being hoisted by power, and transferred to various parts of the large room by means of slide bars and rollers.

In the center of this immense structure, towering high in the air, is a tower, which is neatly finished, and may be used as a tower of observation, as one can see the beautiful stretch of country, the green fields and the cattle on their respective ranges. Surmounting this tower, which is sixty feet above the ground, is a windmill which rests on a steel derrick twenty-feet high. This windmill, which will be used in pumping and for other purposes, is equipped with a fourteen-foot wheel, and is a powerful machine.

A contract has just been let for equipping this barn with lightning rods, as every precaution will be taken for the safety of the property and cattle. It will require six hundred feet of rod, and the ornaments will comprise twenty-one points with balls, four gold-leaf cow vanes, one weather vane, with compass.

Manager Callison is enthusiastic over the breeding of fine cattle, and is one of the best posted men in that direction in the country. He is taking excellent care of his stock, which is the pride of all lovers of fine cattle.

The Spring Park Stock Farm Co. is well equipped with all necessities and conveniences of a modern farm, having its own sawmill, gristmill and other conveniences which expediate the work.

DR. SLEDD TO MOVE.

President of University of Florida Will Bring His Family Here.

Dr. Andrew Sledd, president of the University of Florida, left yesterday for Palatka, after a couple of days here in the interest of the University.

Dr. Sledd has rented the Turner home, corner of West Liberty and South Pleasant streets, and will remove with his family to his future home on or about September 1. This is one of the nicest and most conveniently arranged homes in the city.

The people of Gainesville will be proud to welcome the president of the University of Florida and his estimable family.

TERMS WILL BE SHORT.

Examination of Teachers Will Conflict With State Normal Terms.

Owing to the fact that State Superintendent of Schools W. M. Holloway has ordered the examination for State, special and primary certificates, beginning on July 17, the State Normal terms will be shortened.

The original time set for the normal terms was six weeks, which would run these institutions until July 20. Under the present order, however, the Normal terms will last only five weeks—two days more.

A Tragic Finish.

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth McIver of Vanceboro, Me., permitted a little cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold, but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure, at all drug stores. 50c and $1. Trial bottle free.

A Truthful Promise.

A prominent young business man of this city, connected with one of the most extensive houses, who is as liberal and as generous as he is prominent, loaned a friend the other day a five-dollar note, with the understanding that the friend was to return the five as soon as he could see his uncle.

The joke comes in by reason of the fact that the only uncle the recipient of the "five" ever had passed to the great beyond several years ago. The young man will probably be more careful in the manner in which he hands his money out in future. The recipient is willing to stand by his obligation, however.

BIG DAY AT SPRINGS.

Nearly Six Hundred People Visited Suwannee River Resort Sunday.

White Springs, on the Suwannee river, has always been a popular resort for parties living within a radius of fifty miles from that point, but within the past three years the place has gained almost a national reputation, and is visited by parties from all over the country, many of whom are invalids and go for the benefit to be derived from the medical properties of the water.

The summer excursion rate, which has been inaugurated by the Gainesville and Gulf Railroad, together with the convenient schedule, enables the people of Gainesville to spend Sunday at this popular resort at a most nominal cost. The rate on Sunday is only $1 for the round trip, and the schedule affords a full day at the springs.

As the best evidence that these excursions are proving popular, they are well patronized each week, a large number taking advantage of the opportunity for a day's outing.

Those from Gainesville who visited White Springs Sunday state that the resort was crowded, nearly six hundred people having congregated there from points in Georgia and Florida.

A FILTHY STREET.

Business Men of Wall Street Complain of Its Condition.

Editor Sun: Kindly allow me space to call the attention of the Street Committee to the unsanitary condition of Wall street. This is one of the most important streets in the city. There are more vehicles run and more business transacted on this thoroughfare than any other street of twice its length, and yet it has been totally neglected—never graded, drained or rocked. The filthy, stagnant pools of mud and water standing from week to week is enough to breed yellow fever, cholera or any other deadly epidemic.

Why is it that the Street Committee is spending hundreds of dollars in far less important places and leaving this street in such a shameful condition? Mark my prediction: If the business men of Wall street can have any voice in the next election of councilmen they will cast their votes for others, who will do them justice by placing this street in better condition.

Respectfully,
P. M. OLIVER.

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

With one of the most elegant court houses in the State and an $85,000 public building, Ocala is to be in it.

The New York papers have been playing in luck. First was the Stanford White tragedy to sell papers, and coming close on that was the great railroad disaster in England.

When the question of taxing the property owners for public improvements is before the court, it is always the fellow who has no property to tax who is the most ardent supporter of the plan.

The Tampa Herald has moved into elegant new quarters, the building being specially erected for it. The Herald is one of the best afternoon papers in the State and The Sun is glad to note that it is appreciated by the business men of the thriving city in which it is printed.

R. P. Hopkins, general passenger agent of the Live Oak, Perry and Gulf Railroad, is one of the most competent and accommodating railroad men in the State. He was at one time agent of the Seaboard at Tallahassee, and was one of the most popular agents in the employe of the system.

The Jacksonville Metropolis gives to Senator Taliaferro in a cartoon all the credit for the appropriations received for Florida at this session of Congress. That is more praise than the Junior Senator takes for himself. There are four other members of the Florida delegation, and all of them have had a hand in the government pie.

Every cotton grower in the South should subscribe to The Cotton Journal, published in Atlanta, Ga., and edited by Harvie Jordan. It is as ably edited as it is handsomely printed, which is the highest deserved compliment that could be paid its editor, for from a typographical standpoint it is as neat a publication as we have ever seen printed by the art preservative.

EXCEEDING ITS AUTHORITY.

At its last meeting the Florida State Democratic Executive Committee endorsed Bryan and asserted that the tariff should be the main issue in the coming Presidential campaign.

The Sun is in hearty accord with the declaration, so far as the principles expressed are concerned, but we question the right of the State Democratic Executive Committee to promulgate a platform or to in anywise commit the Democracy of Florida to any issue or to any policy. This question came before the committee, as we understand it, in a round-about way, and as an endorsement of a telegram which the chairman had sent to The Indianapolis Star. It appears that after the State Democratic Committee of Indiana had endorsed Bryan and declared that the tariff should constitute the main issue in the next Presidential campaign, the Indianapolis paper wired the chairmen of the various State executive committees, stating the action on the part of the Indiana committee and asking if the States would join. Without waiting for an expression from the other members of the committee, Chairman Fletcher stated that Florida would join Indiana, but he was careful to add that his reply was his personal opinion and not to be considered as the sentiment of the committee. At the last meeting of the committee Chairman Fletcher referred to the telegram and asked if the committee desired to take any action. This was followed by the committee declaring in favor of Bryan, and tariff as the main issue.

The Sun does not question the right of the members of the Florida State Democratic Executive Committee to express themselves and to resolute on anything they desire, but we do question their right to do so when assembled and conducting the affairs of the Democratic party of Florida. It is a dangerous precedent to establish, and we predict that before many years those who thoughtlessly entered into this action will have sufficient cause to regret it. If the State committee can declare in favor of the national issue, it has the same power to commit the party in a question of State policy. If it can with authority, whether real or assumed, declare for Bryan for President, why could it not declare in favor of some candidate for United States Senator? Of course this idea may be far-fetched, and The Sun does not believe that the committee would ever entertain such a thought, but we are citing this to show what may follow when once the bars have been let down.

It may be that the committee, inflated with its assumption of power, may attempt to put the Democratic party of Florida on record at some future time as favoring some matter of State policy, such as the drainage of the Everglades, the building of roads, the leasing of convicts, and any other question which may arise in connection with the administration of the State's affairs. An expression of any one of the issues named would not be taxing the authority of the committee to a greater extent than it was taxed when the Bryan resolution went through.

The Democratic Executive Committee did all this after it had voted down the proposition to have a State convention to formulate a platform and to name delegates to the national convention. The Sun does not care whether there is a convention held or not. Were a convention to endanger the primary system, we would oppose it and oppose it with vigor. But the people of Florida are too wedded to the primary system to even consider a return to the convention plan, and there are few who would dare to suggest the old method of making nominations. But if there are to be expressions on matters of public policy or in favor of any candidate, the convention or the submitting of these propositions to the Democratic party at a primary are the only methods to be pursued. Those who fought the resolution of Mr. Hooker for a convention before that committee declared that the proper plan was to submit matters of the kind to the people at the polls. Their words had hardly fallen from their lips before they voted to take this power out of the hands of the people and arrogated to themselves the authority to commit the party to any issue they saw fit.

There are reasons why this is a dangerous plan to pursue. It has been observed that at every meeting of the Executive Committee either one or the other of the Jacksonville factions show up there with a pocketful of proxies. There is always a well and thoroughly conducted campaign for proxies just before the committee meets, and the Stockton faction of that committee, by passing a resolution declaring that any Democrat in the State could hold the proxy of any member from any county, gave itself an excellent opportunity to seek advantage through the possession of proxies. The fight between these two factions, so far as the State is concerned, will be just as bitter in the future as it has been in the past, and with either of them controlling the committee, through the possession of proxies, there is danger of their zeal and partisan feeling carrying the Democracy of the State, or at least the committee, into dangerous channels.

The Executive Committee of the State had not the right to commit the party of Florida to any man or policy. When it did so, it laid open the way to a general usurpation of power and authority which in reality it does not possess.

The Sun desires it understood that we are not attacking the resolution itself, for we are in hearty accord with the principles it declared for. We are for Bryan, and believe that the tariff will be the main issue in the campaign. But we protest against the State Democratic Executive Committee declaring in effect that it is the whole thing, when in reality its scope of action is limited and well and closely defined by all party precedents, party law, principle and equity in every State, as well as in Florida.

W. H. Cumming, a progressive and enterprising citizen of this city, is demonstrating to his neighbors that there is money in raising chickens. He is making a thorough investigation of this business and has one of the best droves of chickens in the county. The chickens are the Rhode Island Reds and can be raised in this climate with great success. Mr. Cumming has about three hundred head of these chickens.—Lake Butler Star.

The fence cutters are again getting in their work in DeSoto county. Stock owners in that section who have been accustomed to have their cattle graze on lands of others cannot reconcile themselves to being deprived of such privileges, hence they resort to the unlawful cutting of fences enclosing lands heretofore not fenced. Some horrible assassinations occurred a few years ago as a result of cutting fences in South Florida.

Prof. Tom F. McBeath is filling the chair of Psychology and Methods in the big summer school of the Mississippi Agricultural and Mechanical College, which more than 500 teachers are attending. The college chose wisely when it sent to Florida for Prof. McBeath.—Times-Union Short Talks.

Wallace Stovall's Tampa Tribune is a credit not only to Tampa, but the whole State. It has been a great factor in the material development of South Florida, and it is gratifying to note the liberal patronage such an excellent journal receives from the business men of that section.

STREET FIGHT ENDS IN DEATH.

Barton Henley Shot and Killed by R. Daniel in Hawkinsville.

Hawkinsville, Ga., July 9.—Barton Hradley, a well known citizen, was shot to death on the streets here and Seaborn Hunt seriously wounded while they were engaged in a difficulty at midnight.

Daniels and Hunt, it is said, had a fight with Hendley a few minutes before the killing. Hendley went away, secured a gun and was returning to the scene of the first difficulty when he encountered Daniels and Hunt, when the shooting began.

Daniels says he fired the shots that killed Hendley, and that Hendley shot Hunt in the arm and side. Daniels was locked up in jail here, and Hunt is resting at the hotel. An investigation by the coroner's jury resulted in a verdict that Hendley's death was caused by shots fired from a pistol in the hands of Roswell Daniels.

Hendley was buried Saturday. He was formerly a citizen of Macon, but had returned to Hawkinsville. All parties have a number of friends in Pulaski.

Modest Claims Often Carry the Most Conviction.

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise, instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will accomplish, but prefer to let the users make the statements. What they do claim is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by all druggists.

Bryans Guest of Reid.

Bryan and Mrs. Bryan are spending the week-end as the guests of ambassador Whitelaw Reid and Mrs. Reid at Wrest park, to which place they rode in an automobile Saturday morning. Dr. Pierce's Favorite Prescription,

Is not a secret or patent medicine, against which the most intelligent people are quite naturally averse because of the uncertainty as to their harmless character, but is a medicine OF KNOWN COMPOSITION, a full list of all its ingredients being printed, *in plain English*, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure glycerine taking the place of the commonly used alcohol, in its make-up. The "Favorite Prescription" of Dr. Pierce is in fact the only medicine put up for the cure of woman's peculiar weaknesses and ailments, sold through druggists, that does not contain alcohol *and that too in large quantities*. Furthermore, it is the only medicine for woman's special diseases, the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of some of these endorsements will be sent to any address, postpaid, and absolutely *free* if you request same by postal card or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Don't forget that Dr. Pierce's Favorite Prescription, for woman's weaknesses and delicate ailments, is not a patent or secret medicine, being the "Favorite Prescription" of a regularly educated and graduated physician, engaged in the practice of his chosen specialty—that of diseases of women—that its ingredients are printed in *plain English* on every bottle-wrapper; that it is the only medicine especially designed for the cure of woman's diseases that contains no alcohol, and the only one that has a professional endorsement worth more than all the so-called "testimonials" ever published for other medicines. Send for these endorsements as above. They are *free* for the asking.

If you suffer from periodical, headache, backache, dizziness, pain or dragging down sensation low down in the abdomen, weak back, have disagreeable and weakening, catarrhal, pelvic drain, or are in distress from being long on your feet, then you may be sure of benefit from taking Dr. Pierce's Favorite Prescription.

Dr. Pierce's Pleasant Pellets the best laxative and regulator of the bowels. They invigorate stomach, liver and bowels. One a laxative; two or three a cathartic.

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms for its quick effect in removing the scalp of dandruff and also for its excellence as a general Hair Dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

WISHES SUCCESS TO CUTICURA REMEDIES

"After using Cuticura Soap, Ointment, and Pills, I am very glad to say I am entirely relieved of that itching humor of the head and scalp which I was bothered with quite a length of time. I did not use the Cuticura Remedies more than three times before I began to get better, and now I am completely well. I suffered with that humor on my head, and found no relief until I took the Cuticura Remedies. I think I used several cakes of Cuticura Soap, three boxes of Ointment, and two vials of Pills. I am doing all I can to publish the Cuticura Remedies, for they have done me good, and I know they will do others the same. With best wishes for your success." Mrs. Mattie Jackson, June 12, 1905. LIVING ON AN ACRE.

How It Would Help the Man of Family and Little Money.

A family, with a modest house surrounded by an acre of good soil, even where the work has to be performed by members of the family who are occupied during the long hours of the day at various occupations, will produce almost everything used in the family. An acre of ground thoroughly well cultivated, with a little chicken yard as an adjunct, will reduce in a very material way the expenses of the family.

Of course acre lots are impossible inside of the city limits or even very close to the city limits. The person seeking so large a lot must go to a considerable distance from the business center, but the extension of electric lines enables even working people to live at a considerable distance from their place of employment. A man who earns $2.50 to twice that sum a day and who has a family consisting of a number of children often finds some difficulty in bringing them up properly and giving them the kind of an education he would wish. Such an investment as this, saving rent of say $20 a month and yielding eggs and all kinds of vegetables as well as considerable of the fruit that goes to make up the daily ration of each member of the family, will make his struggle in life much lighter. A man who has such a stake in the country will be in every way a better citizen than the one who spends his week's earnings as soon as they come into his hand, if not a week before they are earned.

Varied occupation exceeds all other processes in drawing out whatever of ability a man possesses. Here lies the advantage to the community—one superior to all economic gain—of the suburban acre lot for the home of the city wage earner. The cultivation of that acre in alternation with his other employment will bring him intellectual and spiritual enlargement, while it gives him a healthier body and wholesome surroundings in which to bring up his family.—Maxwell's Talisman.

No Back Action.

Mr. Gladstone knew how to admit that he was in the wrong. On one occasion he did so candidly and handsomely, as becomes a gentleman. But he preferred to keep clear of the necessity for apologies and had scant belief in their efficacy. "You can't unpull a man's nose," he once said to his private secretary, Sir Algernon West.

Knew How It Was.

"I presume you spend all you make?"

"No; I don't spend a tenth of it."

"Then you must have a nice little balance in the bank?"

"Nope, not a cent."

"Shake, old chap. I'm married myself."—Houston Post.

Undermined Streets.

A modern city's experiences with undermined streets are not unique. More than three centuries ago Bristol, England, had to face a situation somewhat similar. On his visit there Pepys noticed that the only carts allowed in the streets were those that could be drawn by dogs, for Bristol had dug cellars beneath her streets and stored her wealth therein—rum, tobacco and Bristol milk, the sherry that is still mysteriously tapped.
